ABOUT US

- Alam Tanners, a Kolkata-based company, has been engaged in the manufacturing and export of gloving leather and gloves since its inception in 1990. The company initially began as a raw hide selling agency but has evolved into a prominent player in the gloving leather industry, with its own manufacturing facilities.
- Currently, Alam Tanners operates two manufacturing units in Kolkata, where it produces high-quality leather and gloves. Over the years, the company has expanded its reach to cover the entire Indian market through an extensive network established via participation in leather shows and exhibitions.
- Alam Tanners commitment to quality and innovation has enabled it to establish itself as a leading manufacturer and exporter of gloving leather and gloves in India, serving a diverse clientele both domestically and internationally.

MISSION

At Alam Tanners, our mission is to craft exceptional quality gloving leather and gloves, enriching the experience of our customers with products that epitomize durability, comfort, and style. Committed to upholding the highest standards of craftsmanship and ethical business practices, we strive to exceed expectations in every aspect of our operations. Through innovation, sustainability, and a relentless pursuit of excellence, we aim to be the preferred choice for discerning individuals and businesses seeking premium leather solutions.

VISION

Our vision at Alam Tanners is to redefine the standards of excellence in the gloving leather industry, setting new benchmarks for quality, innovation, and customer satisfaction. We aspire to be recognized globally as a symbol of craftsmanship and integrity, renowned for our unwavering commitment to delivering superior products and unparalleled service. Guided by a spirit of innovation and a deep respect for our heritage, we envision a future where Alam Tanners is synonymous with luxury, reliability, and sustainability, inspiring confidence and trust in every customer we serve.

DIRECTOR'S NOTE

INTEKHAB ALAM

DIRECTOR

As Directors of our ATIGloves manufacturing company, we uphold the principles of honesty and sustainability at the core of our business. Our commitment extends beyond profit margins to fostering trust with our stakeholders and safeguarding the environment. By adhering to ethical practices in every aspect of our operations, from sourcing materials to manufacturing processes, we prioritize the well-being of both our workers and the planet. With transparency and accountability as our guiding values, we strive to set a standard for responsible business conduct in the industry. Together, let us forge a future where integrity and sustainability thrive hand in hand.

A close-up photograph of a leather craftsman in a workshop. The craftsman is wearing a grey long-sleeved shirt and is focused on working with a piece of dark brown leather. His hands are visible, one holding the leather steady while the other appears to be using a tool. The background is slightly blurred, showing other workbenches and tools in the workshop. A semi-transparent dark grey box with a white border is overlaid on the center of the image, containing white text.

**We are Manufacturer and Exporters
of Leather and Leather Products.**

PRODUCT

Canadian Gloves

- We have an elaborate range of Canadian Gloves, also known as Rigger Gloves, that are used by workers engaged in Construction work, Light Metal Welding, Electrical Work among others. Other applications include Farming, Utilities, Landscaping and General Assembly.
- All our products can also be produced in heat resistant and water repellent variants depending on the customer requirement.

Driving Gloves

- One of our best-selling ranges is Drivers Gloves that offer optimum comfort to the wearer.
- These are manufactured skilfully keeping in mind factors such as comfort and wear resistance.
- These come in wing thumbs, straight thumbs and keystone thumbs.
- These gloves are used in industries such as Farming, Construction, Utilities, Metal Work, Driving, Landscaping, General Assembly and General Applications requiring dexterity.
- All our products can also be produced in heat resistant and water repellent variants depending on the customer requirement.

PRODUCT

Welding Gloves

- Our superior quality Leather Welding Gloves are made of both Grain and Split Leather.
- These Welding Gloves are used primarily while handling abrasive or sharp materials like steel, bricks, cables or castings and for general purpose applications requiring high heat or spark protection.
- All our products can also be produced in heat resistant and water repellent variants depending on the customer requirement.

Safety Gloves

- Safety gloves are essential personal protective equipment (PPE) designed to protect hands from various hazards in the workplace.
- These gloves come in a wide range of materials and designs tailored to specific tasks and environments.
- leather gloves provide protection against abrasions, cuts, and punctures, making them suitable for handling rough materials or sharp objects.
- chemical-resistant gloves are crucial for safeguarding against corrosive substances, acids, and solvents, preventing skin damage and chemical burns.
